- **As a general rule, we recommend that all visitors with any type of disability (physical, sensory, visceral, multiple)** talk to our staff about the most advisable rides for their enjoyment. For important technical security reasons, each ride has its own preventive safety measures based on the guidelines and recommendations for use specified by the manufacturer.
- **It is mandatory that anyone with a disability is accompanied to our park by another adult** with full physical and mental faculties, who can help them in case of need or in any type of emergency, and takes responsibility for them. This means having to sign a statement of responsibility.

- **For safety reasons, all rides have use restrictions.** The specific safety regulations for each ride are located at the ride's entrance. These restrictions must be strictly adhered to. In any case, the instructions given by our staff at each ride must be followed and take priority. Holidayworld is not responsible for any damage that visitors may suffer because they do not comply with these rules.
- **You may not take personal effects on rides** as they may cause damage or could get damaged or lost. Leave them with a companion or family member before getting on the ride.
